

School-Owned Devices

Each classroom teacher will be assigned devices at the beginning of the school year. The employee is not responsible for replacing the devices if the employee is acting in good faith at SeA when the device is harmed.

If the employee wants to take the devices off campus, the employee must sign a written agreement with SeA whereby the employee assumes financial responsibility for electronic devices off school property or outside of a school-sponsored event. In the event that damage occurs while employee is under the agreement, the employee must report the incident in writing. The first report will result in the device being replaced as long as funds are available. If a second device or more is damaged, lost or stolen the employee must reimburse the school the value of the device. If a device is stolen, a police report must be filed.
